

THE CAREERS SPOT

Graduate Statistics & Salaries

Each year, Graduate Careers Australia (GCA) surveys higher education graduates throughout Australia as part of the Australian Graduate Survey (AGS). Graduates who complete the survey are asked about themselves, including whether they are in full-time or part-time employment, in further full-time study, or are unavailable for either.

Graduate Opportunities (GO) provides your connection to all things grad-related! From the latest info on employers and their graduate programs, graduate jobs and internships, graduate salaries, facts, figures, application dates, job-hunting tips and much more, Graduate Opportunities has you covered! GO is published by Graduate Careers Australia and has been linking graduates and employers for over 40 years.

The purpose of GO is to provide you with comprehensive information about a wide range of graduate employment opportunities, including:

- employers currently seeking graduates
- graduate programs, vacation programs, cadetships and other employment programs
- when to apply
- how to apply
- eligibility requirements
- employer contact information
