

## **Year 9 – 2018 Elective Sheet**

Dear Student and Parent,

Within the elective program each student participates in two elective subjects per term for a total of six electives over three terms. Year 9 students will be involved in the term-based program at Back Creek and on Campus for one term. Students will study each allocated elective for a term, with an elective consisting of six periods per week.

Students are asked to rank each subject listed below from 1 to 15 according to their preference. 1 is first preference, 2 is second preference, and so on. It is not always possible to offer a student their first priorities, therefore it is important that students consider the ranking they give to each subject.

Parents and students are strongly advised to attend the Elective Expo on **Wednesday August 30** where staff will be available to assist families with elective selection, subject pathways and to assist with completing the elective form online.

**Please complete Elective rankings below.**
